# Foreword

## Dear Colleagues,

On behalf of the organizing committee, I am immensely privileged to be the organizing chairperson and it's my great pleasure to extend a warm welcome to all the participants, invited guest speakers, advisory committee members and most importantly residents to the 27th ICP AIPNA Pathology International CME organized by Department of Pathology, Gajra Raja Medical College, Gwalior in association with GPMA, Gwalior. It is indeed a moment of immense pride for me to host for the first time an International CME in the heritage city of Gwalior.

This conference will be held in a virtual platform, a second in the history of ICP AIPNA CME. The conference will have sessions focusing on gynec path, soft tissue/ bone path, liver path, breast path, dermatopath, lung path, pediatric path, hemato path, neuro path, etc. These specialties will have topics which will introduce the concept and lead you all into in-depth discussion on related IHC, cytogenetics, molecular pathology, flow cytometry and other latest diagnostic procedures.

My heart felt gratitude to all the speakers for their readiness to share their vast experience and knowledge in their respective fields.

I am truly blessed to be ably Guided by Dr. Srinivas Rao Mandavilli (AIPNA Coordinator), Dr. BD Radotra (ICP Dean) and Dr. Nuzhat Husain (ICP Secretary). Their efforts and contributions to get the best speakers from India and abroad is unfathomable.

I am highly indebted to all my colleagues, friends and all the students from India and across the World for extending their unstinted support by their prestigious presence in this conference.

It is my privilege to immensely thank our dynamic and proactive Dean Dr. Sameer Gupta and Medical Superintendent Dr. RKS Dhakad to have made this conference a grand success with their unstinted support and guidance.

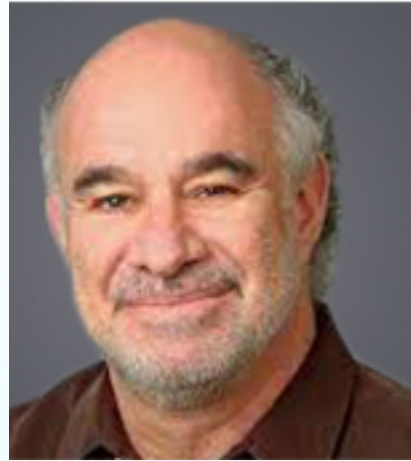

Words of appreciation fail me when it comes to thanking and appreciating the sponsoring organizations to have voluntarily come forward with their generous financial support.

In this era of virtual conference, it is my utmost duty and pleasure to thank whole heartedly the office of the IT support people who have helped us immensely in putting together this virtual conference right from scratch.

I would urge all the participants to be there as "this meeting should not be missed" and I promise you all that it will be a potpourri of a great scientific feast. Hoping that all of you will get drenched in the rain of knowledge pouring down from one of the heritage cities of India, Gwalior.
